Funds provided through this grant will be used to address assessment and cleanup at approximately 172 leaking petroleum underground storage tank sites in North Carolina. Four environmental service providers and two analytical laboratories will be contracted to conduct this work, and will be supervised by two new temporary positions. It is expected that new/retained positions will be necessary for the contracted companies and their subcontractors to achieve the desired outcomes at the 172 sites within the grant period.

Quarterly Activities/Project Description*				
Funding of several activities state-wide such as: shovel-ready projects that are typically orphan or abandoned sites, where owners/operators of the sites are unknown or unable to pay; and staff management and oversight activities that will leverage additional clean-ups. The overall purpose is to attempt to clean up contaminated LUST sites effectively, maximize job creation/retention, and provide economic and environmental benefits to the citizens of North Carolina.
